Toronto Coalition Against Racism formed to fight racist and fascist attacks.....

We have seen a frightening escalation of racist and fascist attacks. Two Tamil men have been brutally beaten and a third man was murdered.
On June 28th over 2,500 people united to protest these attacks. Over 70 community groups endorsing the demonstration. But the attacks continue. On the August long weekend, a South Asian man was brutally beaten by four white youths, while fishing at the Humber River. To oppose these racist and fascist attacks, we are building a broad-based coalition.
Upcoming coalition events:

- Protest NDP announcement to cut OHIP coverage for domestic workers, refugees and visa students
- Benefit Concert to raise money for the Tamil families of those recently attacked
- Fight racist policing
- and much, much more!
